

PRIVACY NOTICE FOR SELECTIONS

1. DESCRIPTION OF THE PROCESSING OPERATION

New incoming information of possible investigative interest may arrive at OLAF from:

1. a private party:
 - anonymously, online via the Fraud Notification System (FNS);
 - via e-mail, regular post, or to an OLAF staff member;
 - a whistleblower, via e-mail sent to a dedicated functional mailbox (OLAF-FMBSPE@ec.europa.eu), FNS or through regular mail;
2. an EU institution, body, office or agency or Member State authority;
3. any other source;
4. following OLAF's own initiative (media review, other information which comes to OLAF's attention).

During the selection phase, Unit 0.1 considers the incoming information of possible investigative interest in order to provide an opinion to the Director-General on whether an investigation or a coordination case should be opened, or whether the case should be dismissed. Where the initial information received via the channels indicated above is manifestly irrelevant or out of the scope of the OLAF competence, such information is not subject to selection procedure and the source is informed that OLAF is not competent to act. At the end of the selection process, the opinion is based on an analysis of whether the information falls within OLAF's competence to act, and whether the information provides sufficient grounds for suspicion to open an investigation or coordination case. Unit 0.1 also verifies the proportionality of opening an OLAF investigation, the efficient use of investigative resources, and whether OLAF is best placed to conduct the investigation and can add value. Before proposing to the DG the opening of an investigation Unit 0.1 verifies whether the European Public Prosecutor's Office (EPPO) investigates into the same matter. The selection process is described in Chapter 1 of the OLAF Guidelines on Investigation Procedures.

Pursuant to Article 12(c), points (1) and (4) of Regulation (EU, Euratom) No 883/2013 and Article 24(1) of Council Regulation (EU) 2017/1939, where OLAF identifies potential criminal conduct in respect of which the EPPO could exercise its competence, it reports the information to the EPPO. Any EPPO feedback related to the case reported will be recorded in the same file.

When, following a selection procedure, OLAF decides that there is no need to open an investigation or a coordination case (e.g. the matter can be dealt with by another competent authority or the suspicions are not sufficient), the matter is dismissed. Where a case is dismissed, the information may be transmitted to other services of the Commission, EU Institutions, authorities in the Member States, third countries or international organisations for whom such information may be relevant for their anti-fraud activities.

The documentation is stored in the dedicated OLAF case management system.

2. LEGAL BASIS FOR THE PROCESSING

Eventual international transfer may be made in accordance with Regulation(EU) 2018/1725, where necessary, to countries with an adequate level of data protection, to partners implementing appropriate safeguards or may be based on a derogation.
